Requests for information pertaining to individual schools will be incorporated into school SPSA presentations: High School Task Force key strategy implementation, progressive discipline policy, course failure rate, numbers of students in athletics and extracurricular activities, parent involvement, and parent communication. The district organizational chart will be given to Board members.

A district events calendar is now running on the district website at http://www.wusd.k12.ca.us/events_calendar/events_calendar.html. There is a Quick Link on the front page. We are working on getting this calendar on school websites where it will show events for that particular school.
