Strategic Planning Phase II ~ ACTION TEAMS!

Our Strategies:

- 1) We will create an ***individualized high-quality educational experience*** which addresses the unique needs of the whole child, while igniting a passion for learning.
- 2) We will create a ***system of professional practice*** that incorporates strong collaboration, support, mentorship, development, and training for all educators, that is responsive to our changing community and world.
- 3) We will ***unify our community in culturally sensitive ways*** to engage all members in the education of our students.
