Child, Family, and School Social Worker

Do you have a goal in life? Is there something you've always seen yourself doing? Do you have a dream you wish to accomplish? A way to fulfill that dream that you have is with a career. A career is the pursuit of a lifelong progression towards lifelong goals. It's something you can see yourself doing for the rest of your life. But with that in mind your career choice can change depending on you yourself. If you don't quite know what you want to do for the rest of your life, that's completely fine. Most teenagers our age or even adults don't really know what they want to do. A way to help you with your decision is by taking a career survey. The survey is here to help you get a general idea of careers you may excel at or even enjoy. To figure that out the survey will ask you various questions about general things that may interest you in a career. After you've answered each section you will add up your overall score, then pick three sections you ranked highest in. The sections you will be ranked in are by personality. Are you realistic, investigative, artistic, social, enterprising or conventional? After you've done that, you will put those top three personality traits into ca.careerzone.org. Careers will come up after you've submitted your information, these careers have been determined by that information. I've taken this survey myself, the three categories I ranked highest in were: social, enterprising and artistic. The survey came up with careers such as a health educator, patient representative, clergy all the way to a social worker. In my personal opinion the survey gave me a lot of career choices I found interesting and feel that I would enjoy.

actually consider doing. I won't just random ^{careers} jobs that were completely off from my personality. That ^{with my} career I have chosen was a child, family and school social worker. I've chosen this ~~field because~~ field because I find lots of interest in social and community work. I'm very good at speaking with others and I'm a very caring person. I enjoy helping others who need it. This is why I feel that the survey did an amazing job at helping me choose a career. It really just confirmed my thoughts.

III A career in social work consists of many different aspects. Such as education, ~~or you can~~ ^{comparing a career in social} work to work in this field you would need at least a four-year bachelor's degree, but some occupations do not require that. May require more or less.

Future Social Worker for WUSD

Attorney

Salary \$113,530

Attorney

A career is the lifetime pursuit of an accumulation of an individual's work life. It's a lifetime journey of building skills and special training or higher levels of education. A career path depends on the value to society and the value the more common. A Career is also a steady upward well planned one decision to go up as you go through job to higher positions. The career goals were very small but would you could answer my questions to determine with what fields you affiliate with and the one you're most interested in. The companies that I was most interested in were The President, The Organizer, and The Creator. Some of the jobs that I had to explain to research where Air traffic Controller, Real Estate Sales Agent and Lawyer.

The survey helped me choose my career by looking at my skills and abilities and giving me options upon a few careers I have chosen the career of being an attorney as my career choice because my interests are in the field of Law. I chose this career because I would love to defend people in Criminal and Civil procedures. I also want to get into the pay and the demand of the most for lawyers. The demand is of 1.17% of the yearly growth. This career matches my interests and skill set because ever since I was a little boy I wanted to be an attorney to serve justice to those that deserve it and to those who avoid it. My skill set is to think critically, analyze, and to research. As an attorney I would be doing that on a daily basis. I already do so.

A Career in Law and Criminal justice consists of many different options. The pay salary is great starting off on an average of \$161,000 a year a more advanced attorney gets around

Substance Abuse & Behavioral Disorder Counselor

These counselors earned an average annual salary of \$19,73 per hour.

Issue: drug abuse. the use of a drug especially one for which it was habituates.

Dancers

Having a career is very important. Some have different goals than others. Finding a career to me may be it seems. It's a very complex decision to make and maybe that some people all doing what they should, often ending for something that doesn't suit them. Any decision you make involves you going through a process before you actually reach a decision. Some people have career goals to graduate in High School. Some people have difficulties in joining in another field or work which is not based on what they have picked, along with their personalities and their talents. The career I chose was becoming a Dancer/Professional Dancer. It's basically showing us what dancers and choreographers do. This career is all about performing dances, may perform on stage, for on-air broadcasting or for video recording. An responsibility is to learn dance, prepare new dance moves and dance skills. Displayed choreographed body movements that might appear in dance productions. The career I chose interests me the most and I enjoy where I would see myself as a dancer where I can show my real talent.

The career helped me choose this in a way that I see this career in real life and how I'm working towards it. I have chosen to be a Professional Dancer as a career choice because my interests lies in the field of working dancers on being to dance and express their talents and gifts. I chose this career because it has something that I actually love to, to showcase my talent. What I love about dancing is also to see other people put in their effort and time and choose to dance with passion, for those who love to dance it is a good thing to see them dance and put in their.
